

Notice to the Public

Effective July 10, 2000 a tarp charge will be enforced at the Angelina County Waste Management Center. Angelina County Waste Management Center has the authority to levy a surcharge on any load of waste/trash/garbage/loose material entering the landfill that is not properly tarped, covered or otherwise enclosed so as to eliminate the discharge of waste/trash/garbage/loose material onto the roadway. "***Loose Material***" means dirt, sand, gravel, wood chips, or other materials that are capable of blowing or spilling from a vehicle as a result of movement or exposure to air, wind currents, or weather.

A charge of \$5.00 per individual customer and a charge of \$10.00 for commercial customers will be added to the receipt if necessary. To avoid a tarp charge please follow these guidelines:

- The bed carrying the load must be completely enclosed on both sides by sideboards or side panels, and on the rear by a tailgate, board or panel.
- The top of the load must be secured with a canvas, tarpaulin or other covering firmly secured to the front and the back to prevent the escape of any part of the load because of blowing and spilling.
- All loads must be covered even if trash is in bags.
